Hushidar Mortezaie

Join us for our next *Conversations on Culture: Diaspora* program, an ongoing lecture series in the Global Museum co-hosted with the SF State Anthropology department. We are fortunate to host **Hushidar Mortezaie**, a fashion designer, visual artist, and activist whose work blends folklore, gender politics, and iconography.

Mortezaie intends for his designs, featured in *Italian Vogue* and worn by celebrities such as Beyonce and Sarah Jessica Parker, to reflect the past, present, and future of his heritage and inspire the next generation of Iranian-American youth to take pride in their culture.
